GENERAL FASTENERS & SUPPORT SOLUTIONS

V4.1

ABOUT US

Who

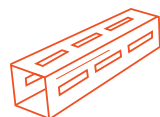

FDG is a NZ Owned, Family business incorporating 3 generations of the Brodie Family. With over 40 years experience our focus is on providing effective solutions not just selling products, which is why we have become the preferred supplier for some of New Zealand's most prestigious construction and engineering projects. We strive to keep businesses 'moving and making', bringing an energetic and proactive approach to every job, big or small. We aim to add value to your business through our trusted relationships with key suppliers, engineers and industry experts, so that FDG becomes your 'Go-To' supplier for Fixings and Support Solutions.

Why

FDG's wide product range focuses primarily on the building services trades. We stock an extensive range of strut and fittings, fasteners, pipe and cable supports, workshop tools and a full range of consumables. One of our unique support solutions is our German manufactured modular framing (ModFrame) which supports heavy pipework, HVAC Duct and Cable Support Systems. Our promise to you is 'if we don't have it, we will find it or use our expertise to offer an alternative.

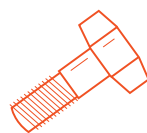

What

As a key supplier to the building services trades we understand that time is money and it's often the little things that can cost you. That's why FDG have tailored a unique product range that combines multiple suppliers into one, bringing significant value to the industry. We customize solutions for our customers, matching the right product and service to the specific requirements of the project. Our engineering but also practical experience in the field gives the confidence to bring us in at the planning stage, partnering with you to minimize risk and keep you moving and making.

SUPPORT SOLUTIONS

FDG offers technical design services and the supply of seismic restraint systems for non-structural components such as Mechanical, HVAC, Medical Gas, Hydraulic Plumbing, Electrical and Fire.

GENERAL FASTENERS

With a direct to market model FDG imports and supplies to the Engineering, Construction and Manufacturing sectors, offering a wide range of fasteners and associated products.

KEEPING BUSINESS'S MOVING & MAKING WITH **ONSITE DELIVERY**

Our commitment to keeping our customers moving and making, drives us to make sure they have the right stock when and where they need delivery direct to workshop or site.

With an expansion of our delivery fleet, FDG now service the Auckland region twice a day and we also service the Whangarei, Hamilton, and Tauranga regions on a regular basis. For other regions we have partnered with a network of major nationwide transport companies to ensure your deliveries are completed quickly and easily.

This is all supported by our in-house delivery service team who ensures an efficient and safe transfer of product to your workshop or site. This is tracked at every point of the process, giving you the confidence the product will arrive on time and to your requirements.

SECTORS WE SERVE

FDG are committed to keeping our customers moving and making with a wide range of General Fasteners and Support Solutions. We are the chosen supplier to the following industries:

COMMERCIAL HVAC

ELECTRICAL

INFRASTRUCTURE

PLUMBING

FIRE

MANUFACTURING/
ENGINEERING

SEISMIC DESIGN

FDG has a unique seismic design offering, partnering with our clients to deliver the best results and meet their project goals.

We ensure the requirements of the project are understood, confirming that cost, design and buildability all align. These designs are produced and finalised by a Registered Engineer in accordance with NZS4219:2009. A full set of standard details and layout plans are provided for ease of use onsite. The final PS4 is issued by the Engineer after inspecting the final installation via site visit or remotely.

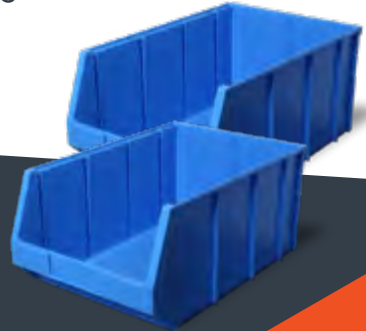

SCAN TO ORDER WITH SRS

FDG's Stock Replenishment System (SRS) is designed to keep stock management and ordering as simple as possible.

With our system we are able to integrate a wide range of systems and processes within your business to save you time and enhance efficiencies.

One major point of difference with FDG is our easy to use QR Code system. FDG's QR code scanner system allows you to transfer your order through your mobile device straight to your online cart. No hassle remembering stock codes or writing down order notes. Ideal for manufacturing customers, assisting with stock supply and organisation.

ONLINE TRADE STORE

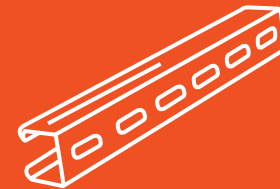

Order Anywhere, Anytime, with FDG's Online Trade Store! It couldn't be easier to choose your stock, organise payment and have it delivered to you, wherever you are.

Take advantage of our extensive ranges of fasteners, pipe & electrical support systems and trade consumables online, all with your applied customer pricing. If you are set up with the FDG SRS QR code ordering system, order and reorder is even easier by scanning a QR code of your desired products. Your personalised login allows you to request quotes, store favourites and view previous and current invoices, all from your favourite device.

“We were initially hesitant to use ModFrame given we had never seen anything like it in the market before, but after use on one project we will never return to traditional welded frames. It cut overall costs by over 50% due to its endless flexibility and huge time saving advantages when installing on site”

CABLE CONTAINMENT

From heavy duty Cable Ladders to light weight Trays and Baskets, FDG is your go to partner for supporting your cable requirements. Check out our range below.

CABLE TRAY

Cable Tray is typically the most popular choice when running cable, allowing you to not only support but organise.

FDG Cable tray comes in 3m lengths and a range of widths between 150mm and 600mm. For any exposed or decorative Cable Tray, this can be powder coated any colour for added effect.

**Available in a range of laying depths and finishes, including Pre-Calv, HDG and Stainless.*

CABLE LADDER

FDG Cable Ladder is designed to support heavy high-voltage cable. Available in Aluminium, HDG and Stainless, it comes in several different load ratings and cable laying depths. All tested to confirm with NEMA Standards, this full range includes risers and bends.

FDG's Cable Ladder comes in 6m lengths and in widths between 150mm and 900mm.

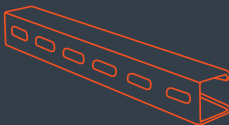

CABLE BASKET

Cable basket is typically used to support light weight and data cable. It's key benefits include speedy installation and excellent cable ventilation. FDG's Cable Basket comes in 3m lengths and widths between 50mm and 600mm. A full range of fittings and accessories are also available.

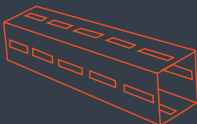

**Available in a range of laying depths and finishes, including Pre-Calv, HDG and Stainless.*

SUPPORTS

STRUT

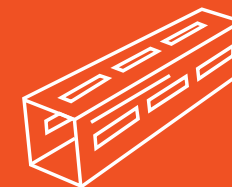

FDG's Strut is also used in combination with cable supports solutions, offering extra strength and bracing. One of the highlights of the FDG Strut system is its ease of installation, which gives a time and money saving alternative to traditional support methods.

MODFRAME

FDG's ModFrame is a Modular Framing System ideally suited to supporting cable ladders, large pipework and multi-service brackets. This time saving system eliminates the need for welding, drilling, and galvanizing. A heavy duty compliment to cable support solutions.

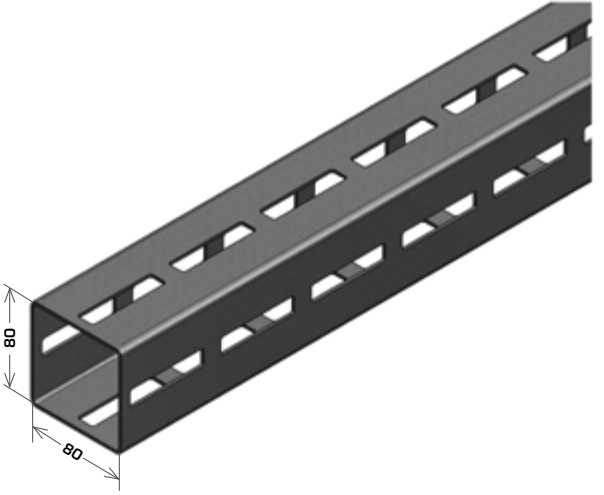

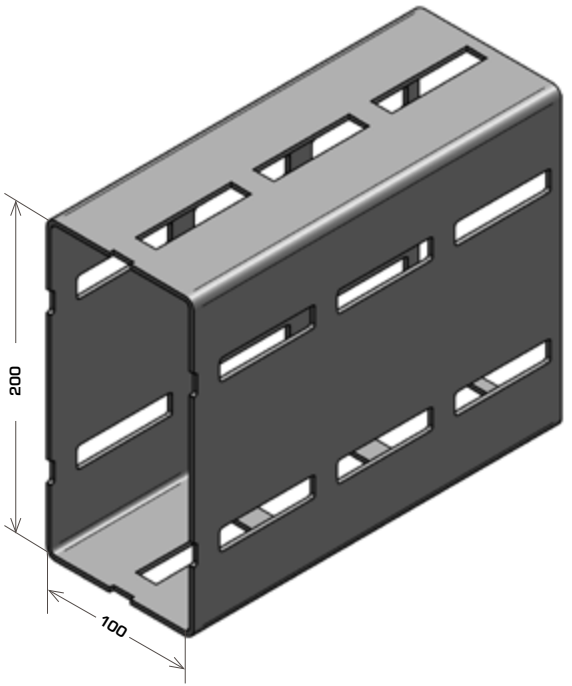

MODFRAME

MODFRAME

German manufactured and designed Modular Framing System — *No Welding Required!*

ABOUT MODFRAME

FDG's ModFrame is ideally suited to supporting, heavy pipework, HVAC Equipment, large ducts and cable ladders. This high quality, German manufactured system has been extensively used on projects throughout New Zealand and the world. Fixed together using a system of unique modular components and fastened together with a patented T-bolt, ModFrame is an easy yet effective alternative to welded systems. ModFrame is bringing flexibility and efficiency to the construction industry and is becoming the new norm as a replacement for traditional costly welded frames.

KEY ADVANTAGES

- Eliminates the need for welding, drilling and galvanizing.
- Gain up to 60% time savings and significantly reduced material weights.
- A standard range of system components are stocked and readily available.
- All components are Hot Dipped Galvanized.
- Its modular nature means site modifications are easily completed.
- Frames, supports and modules can be designed by the FDG Team to be fully compliant with NZS 1170.5.

ENGINEERING & DESIGN

FDG offers an engineering and design service for any frames or heavy-duty supports you require throughout your project. We will work together to co-ordinate your design and help you complete your project on-time and on budget.

A full engineering report will be supplied along with a package of layout drawings and a comprehensive bill-of-materials. Engineering data and CAD files are available upon request from the FDG Team, who can assist your internal teams with design in the early stages.

FOILFLEX II

Premium performance pipe insulation offering lower costs and maximum energy savings.

PRODUCT DESCRIPTION

- Completely closed cell, physically crosslinked foam pipe insulation.
- Heat bonded factory applied reinforced aluminium foil.
- Pre-slit for faster installation.
- Flexible, tough and durable.
- Excellent compression resistance due to its crosslinked foam structure.
- Superior insulating properties compared to other flexible closed cell foams.
- Very high vapour diffusion resistance, Class 1 Vapour Retarder under ASHRAE 2009.
- No claddings required for internal applicaions.
- Conforms to ISO 5659-2 "Smoke Density and Toxicity".
- Anti-microbial.
- Green Star Compliant Product (VOC).
- Complies to NFPA 90A & NFPA 90B.

Reinforced Aluminium Foil

Very high vapour diffusion resistance

FOILFLEXII NO-CLAD

Foilflex No-Clad thermal lagging is wrapped in a puncture resistant and saltater resistant multilayer aluminum foil that has a UV and weather durable coating. Perfect for the outdoors and harsh environments.

* No-Clad available on request

FOAM BLOCKS

Light weight and extremely tough, Thermobreak Thermaloc is a high density closed cell, cross linked polyethylene polymer foam pipe support for hot and cold applications.

EASY & SAFE TO INSTALL

Thermaloc installation is as simple as placing the two pieces over the pipe, squeezing together gently and applying foil tape (supplied separately). No cutting required means no fibres, no dust, no mess to clean up afterwards and no need for protective face masks and gloves.

BUILT TO PERFORM, BUILT TO LAST

Thermaloc's closed cell technology is unaffected by water and humidity. It is also resistant to detergents, diluted acids, alkalis, alcohols, esters and fungi, ensuring performance in even the most demanding applications and over the life of the installation.

Physical Properties

Material:	Crosslinked Closed Cell Polyolefin Foam
Density:	300kg/m ³
Moisture absorption by volume: (internal)	<1% w/w
Resistance to fungi:	Good
Ozone Resistance:	Excellent
UV Resistance:	Excellent
Operating Temperature Range:	-40 °C to 105 °C
Thermal Conductivity: (ASTM C518)	0.069 W/mk
VOC Emission Rate: (ASTM D5116)	Low VOC Emitting ("Green Star")
Compression Strength: (internal)	850 kPa @ 10% deflection 970 kPa @ 25% deflection 1540 kPa @ 50% deflection

SOUNDLAG™

Soundlag has a highly dense and flexible mass layer providing excellent sound reduction properties. The decoupling layer breaks the vibration path between substrate and the mass barrier, allowing the vinyl external wrap to remain flexible - optimising performance.

SYSTEM DESIGN CONSIDERATIONS

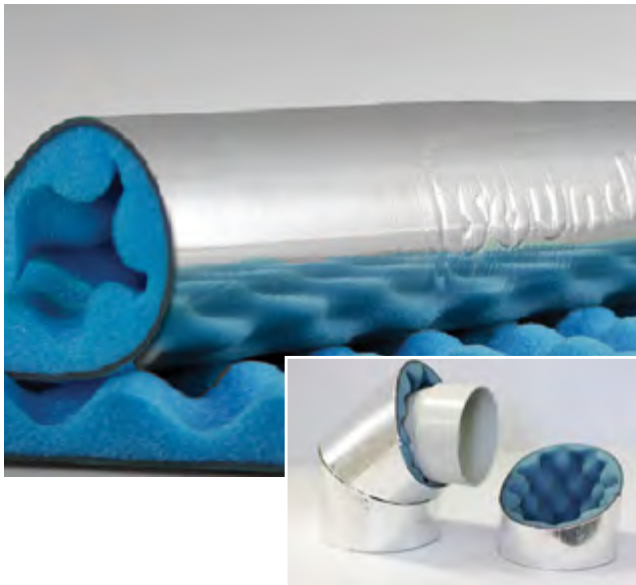

When designing a system using Soundlag, sound penetration through ceilings must be taken into account to ensure effective sound reduction, especially from down-lights, air conditioning ducting, access hatches and where lightweight ceilings such as mineral fibre tiles are used.

INSTALLATION

Soundlag is easily installed using Soundtape, a high quality, self adhesive, reinforced foil tape. To ensure a high quality fit-out, place 3 circumferential wraps of Soundtape every 300 - 400 mm, i.e. 3 wraps per 1m length pipe.

FEATURES

- Dual benefit as a noise barrier and noise absorber.
- The external foil facing offers a fire resistant covering and an excellent surface to join adjacent sheets.
- Free from odour producing oils and bitumen.
- Can cut to size and simple to install.
- Easy to bond with matching tape or equivalent high quality reinforced foil tape.
- Endorsed and tested by leading acoustic consultants and engineers.
- Accredited to ISO 9001 Quality Control Standard.

Rapidstick 8242 Threadlocker is fast curing with medium strength and specifically formulated to give controlled friction and torque/tension ratio during assembly. It is designed for plated parts and vibrating or moving components, and is ideal for fasteners with diameters between 6mm to 20mm (1/4" to 3/4"). 8242 provides a chemically resistant lock and seal to threaded joints, nuts, screws, and studs, meeting 90% of all nut and bold thread locking applications, and performs best in thin bond gaps. It can also be used for the retaining of cylindrical parts.

PROJECT HIGHLIGHT

SmartShelters required FDG to work with both bespoke customer requirements and the wide selection of shelter types within their standard range.

FDG took on this challenge and created a pre-packed kit solution that combines all the components [excluding fabric and steel framing] required to put the shelter together. FDG took on the responsibility of sourcing all tapes, ratchets, including their own fastening range, giving SmartShelters the array of components required.

In producing such a pack, FDG combined what would normally be in excess of 5 suppliers' products into one useful product kit.

Smart Shelters now have a solution that not only works for their customers but also reduces costs and time within their own business, through lower freight costs, packing time and resource time to co-ordinate multiple suppliers.

To maintain the accuracy of product FDG implemented a '2-person check system' to all their product kits, giving Smart Shelters peace of mind in the components supplied.

To give SmartShelters further confidence in FDG, a trial was implemented and following a successful outcome, the team at SmartShelter decided to put the wheels in motion for orders to proceed.

“FDG is great to deal with, they took a new approach to our needs and came forward with a solution to help streamline a particular activity within our business. The FDG team are very helpful, they come forward with solutions and go out of their way to make things happen. This helps us to service our customers better.”

EASY ORDERING ONLINE WITH THE FDG TRADESTORE!

A simple product upload will enable you to search using your own codes or ours. It will also give you the ability to use the express search function or upload your order directly to the site.

SEARCH YOUR OWN CODES

We know how much easier it is to search for products when you can use your own codes. By uploading a CSV file with your codes matched to FDG's at **trade.fdg.nz.com**, you can get started immediately.

UPLOAD YOUR OWN ORDER

Save time and reduce errors by removing the need to rekey orders into our Trade Store. Simply upload your product codes into **trade.fdg.nz.com**.

Once products and orders are successfully uploaded you will now be ready to receive your delivery!

Bulb-Lok rivet is our highest strength structural rivet. The blindside upset is bulbed which helps spread the clamp force so that the joint material is not deformed. The dual locking grooves on the mandrel provide excellent resistance to vibration as well as impressive shear strength and weather tightness.

SR SERIES - ALUMINIUM

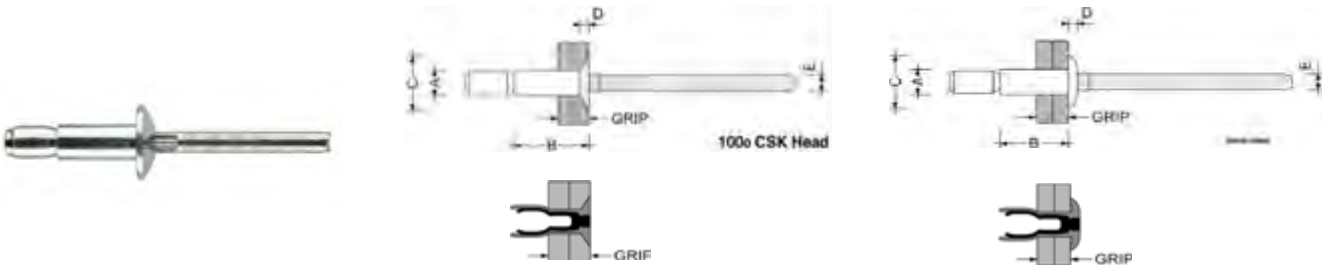

SR SERIES - STEEL

SR Series rivets are blind rivets with a mechanically locked mandrel. They are optimal for structural or demanding applications. Installed easily from one side, the rivet features impressive installed values, excellent hole fill, generous grip range, pressure tight seal and flush breaking mandrel regardless of material thickness.

MATERIAL: Body: Aluminium 5000
MANDREL: Aluminium 7000

FINISH: Body: Clear Chromate
MANDREL: Clear Chromate

PROJECT HIGHLIGHT

THE CHALLENGE

With nearly 100 staff and up to 5 major projects on the go at any time, Chenery needed to make the most of any time savings and efficiencies they could and expected that suppliers would come with solutions that helped to meet this challenge. For Chenery, FDG is one of those supplying partners, a company who is recognized and respected as a partner who will save time and enhance productivity.

Where Chenery was having issues with multiple supplier deliveries at different times, in different locations and often delayed, FDG were able to offer a full range of plumbing support products and fasteners collated and delivered. FDG provides a consolidated supply to Chenery without compromising on service or cost which took away the headache of dealing with multiple companies.

THE FDG SOLUTION

FDG was determined to give Chenery the ability to use their time, their way by freeing up staff to focus on progressing a project forward, not waiting on supplies from other companies who failed to communicate and supply on time. Steve Tamatea of Chenery's says, "I can always depend on FDG to get me what I need when I need it", the sign of a true partnership and shared vision.

Chenery Services uses the full range of FDG products from Bolts & Nuts, Anchors & Pipe Clips, Strut, Cantilever Brackets, Masonry Drills and Tools. "The ability for FDG to source special items is a bonus too" adds Steve.

"I can always depend on FDG to get me what I need when I need it", the sign of a true partnership and shared vision.

— Steve Tamatea, Chenery

**EUROBOOR ECO.30 MAGNETIC
BASE DRILL > 30MM
ECO.30**

Our compact Euroboor ECO.40/2 is the perfect magnetic core drilling machine for twist drills up to 13 mm (1/2"). This magnetic core drilling machine has a powerful 1050 W (9.5 A) motor, integrated slide and two-speed gearbox. This portable drilling machine also benefits from integrated tool cooling and lubrication to make your drilling process more efficient.

Due to its compact size the ECO.30 is the ideal machine to drill holes in small spaces. The ECO.30 measures barely 27.5cm long and weighs only 8.5kg. With its 900W power the ECO.30 cuts holes between 12-30mm easily and quickly.

**EUROBOOR MAGNETIC BASE
DRILL - 2 SPEED 40MM
ECO.40/2**

**EUROBOOR MAGNETIC BASE
DRILL > 32MM
ECO.32**

The Euroboor ECO.50S magnetic core drilling machine converts maximum power through its two speed oil lubricated gearbox. This improves motor efficiency and lifetime of key components. This portable industrial magnetic core drilling machine has an integrated slide which ensures stable support, faster drilling times and more accurate hole sizing.

The ECO.32 has been the best-selling magnetic drilling machine in the recent years. The sufficient basic model has been provided with an eager single speed 1000 W motor. At no more than 12 kg the ECO.32 is the lightest and most compact magnetic drilling machine in the ECO series.

**EUROBOOR MAGNETIC BASE
DRILL - 2 SPEED 50MM
ECO.50S**

**EUROBOOR ECO.36 LOW
PROFILE MAG DRILL
ECO.36**

The Euroboor ECO.36 magnetic core drilling machine is the lowest drilling machine in the market, measuring only 165 mm in height. This magnetic core drilling machine is perfect for drilling in spaces with limited heights such as H-beams, steel structures, plates, profiles, etc. The portable ECO.36 is equipped with a powerful magnet, user friendly Quick Connect cutter fitment system, and easy release / lock feed handle for both left and right operation.

Thanks to its four-speed gearbox our portable Euroboor ECO.80/4 magnetic core drilling machine is able to tackle twist drilling tasks just as easily as big diameter annular cutter challenges. This magnetic core drilling machine has a Morse Taper 3 spindle with integrated tool cooling and lubrication for the best drilling performance.

**EUROBOOR MAGNETIC
DRILL - 4 SPEED 80MM
ECO.80/4**

**EUROBOOR MAGNETIC
DRILL - VARIABLE SPEED 50MM
ECO.50T**

Our ECO.50-T magnetic core drilling machine is suitable for both drilling and tapping. The Euroboor ECO.50-T with Morse Taper 2 spindle is the ideal magnetic drilling machine for maximum power without sacrificing mobility. This drilling machine has a right/left rotating functionality and electronic speed adjustment.

The Euroboor TUBE.30 with patented shallow-field magnetic technology, is suitable for both flat and pipe material and offers incredibly strong grip, even on steel as thin as 3mm. This magnetic core drilling machine automatically pivots to conform to any pipe of 75mm diameter or larger. The magnet does not require electricity, so all the power goes to the motor. This offers increased safety as the drilling machine will not release from the target material in the event of an unintentional power loss.

CRC Coloured Zinc's unique formulation combines superior rust inhibiting properties of zinc with a tough but flexible enamel coating. The coloured satin finish comes in recognised safety colours which resists undercutting and blistering from corrosion by forming an effective corrosion barrier. MPI Approved C23.

CRC BLACK ZINC AEROSOL

CODE	SIZE	PACK QTY
048000056	400ml	6

Recommended as a top coat for added corrosion control, on fabricated metals, engine parts, starter motors, radiators and much more. Coloured zincs are quick drying, primer less topcoats, reinforced with zinc complex.

CRC BLUE ZINC

CODE	SIZE	PACK QTY
048000058	400ml	6

CRC Blue Zinc provides a satin top-coat finish but unlike standard paint systems, resists undercutting and blistering from corrosion by forming an effective corrosion barrier. Ideal for use on scaffolding, garage doors, warehouse racking, fabricated metals, agricultural & factory machinery .

CRC ORANGE ZINC AEROSOL

CODE	SIZE	PACK QTY
048000344	400ml	6

Used on safety barriers, fork hoists, construction & mining equipment, fabricated metals and much more. High levels of anti-corrosive zinc complexes are embedded in a resin system which forms a quick-drying highly-protective enamel coating with excellent adhesion to bare metal.

CRC RED ZINC AEROSOL

CODE	SIZE	PACK QTY
048000398	400ml	6

CRC Red Zinc provides a satin top-coat finish but unlike standard paint systems, resists undercutting and blistering from corrosion by forming an effective corrosion barrier. Used on fabricated metals and surfaces where a red finish is desirable.

CRC YELLOW ZINC AEROSOL

CODE	SIZE	PACK QTY
048000495	400ml	6

CRC Yellow Zinc provides a satin top-coat finish but unlike standard paint systems, resists undercutting and blistering from corrosion by forming an effective corrosion barrier. Used on safety barriers, fork hoists, construction & mining equipment, fabricated metals and much more.

CRC CLEAR ZINC AEROSOL

CODE	SIZE	PACK QTY
048000614	400ml	6

CRC Clear Zinc's advanced protective coating technology protects surfaces from chemical, environmental and ultraviolet damage preventing rust, oxidation, corrosion, staining, and fading, for up to 27 months. CRC Clear Zinc is an easy to use, long lasting, high performance protective clear coating that can be applied to almost any surface.

CRC ZINC IT AEROSOL

CODE	SIZE	PACK QTY
048000497	350g	6

Easy to apply, CRC ZINC IT is a single component zinc rich compound with a special epoxy binder and contains 93% of the highest purity zinc in the dried film, to give galvanic rust prevention. This galvanic rust protection offers the same advantages as hot-dip galvanizing.

CRC BRIGHT ZINC AEROSOL

CODE	SIZE	PACK QTY
048000070	400ml	6

Quick dry coating that combines rust inhibiting properties of Zinc with a flexible enamel coating. CRC Bright Zinc provides a gloss top-coat finish but unlike standard paint systems, resists undercutting and blistering from corrosion. It is ideal for touch-up and repair of damaged galvanised surfaces and effective long-term rust protection with the bright look of a newly galvanised surface.

CRC SILICONE AEROSOL 808

CODE	SIZE	PACK QTY
048000018	500mls	6

CRC 808 Silicone is a multi-purpose silicone spray for general lubrication. It leaves a thin, clear, odourless film that lubricates, waterproofs and revives without damaging treated surfaces or leaving stains. CRC 808 Silicone eliminates squeaking and binding caused by friction and is ideal for use on metals, plastics, rubber, fabrics, wood, glass, and painted surfaces.

CRC CDT CUTTING OIL AEROSOL

CODE	SIZE	PACK QTY
048000085	400ml	6

CRC CDT Cutting compounds are superior neat cutting, drilling tapping, and reaming lubricants, formulated for hand and machine cutting on all types of metal. They significantly reduce friction and wear, increase cutting speeds, protect and extend tool life, and ensure consistent, high quality surface finish. Recommended for metal cutting operations, drilling, tapping, reaming and general workshop applications.

CRC CDT CUTTING LIQUID

CODE	SIZE	PACK QTY
048000086	5l	6

CRC CDT Cutting Liquid is a superior cutting, drilling, tapping, and reaming lubricant, formulated for hand and machine cutting on all types of metal. May also be used as an extreme pressure additive booster for standard neat cutting oils, and for difficult cutting operations such as broaching and gear manufacturing on the toughest metals. NZSFA Approved C12.

CRC 5.56 INDUSTRIAL

CODE	SIZE	PACK QTY
048000014	550mls	6

CRC 5.56 Industrial is a high performance variant of CRC 5.56 fortified with PTFE for additional lubricating performance and non-flammable making it safe for use in industrial applications. The presence of PTFE provides effective lubrication and performs extremely well when frequent start/stop or alternating movements occur. Superior penetrating power breaks through rust and corrosion, loosens rusted parts, displaces water from wet equipment and cleans away scale and dirt.

CRC Industrial Food Grade products have been developed to conform with the highest standards of relevant food authorities, including MPI, NZ AsureQuality and NSF International. CRC Industries follows strict guidelines in all areas of research, development and production, making CRC Food Grade range The Professional's Choice.

CRC FOOD GRADE 5.56

CODE	SIZE	PACK QTY
048000183	400ml	6

A multi-use product ideal for the food industry CRC Food Grade 5.56 Lubricant Aerosol is an effective and efficient multi-use product that penetrates, lubricates and loosens rusted parts, prevents corrosion and displaces moisture. The highly refined white mineral oil forms a thin film that lubricates moving parts for smooth action and silences annoying squeaks and squeals.

CRC FOOD GRADE MACHINE OIL

CODE	SIZE	PACK QTY
048000200	312gm	6

CRC Food Grade Machine Oil is a highly refined machine oil engineered to provide exceptional lubrication characteristics and high levels of wear and corrosion protection. For use in circulation systems lubricating gears and bearings on all food processing equipment.

CRC FOOD GRADE SILICONE

CODE	SIZE	PACK QTY
048000205	300gm	6

CRC Food Grade Silicone is a multi-purpose dry film silicone lubricant for use on food processing and handling equipment. It forms a colourless, odourless film that does not attract dust or product debris. It lubricates and protects in most metal and non metal applications without damaging treated surfaces.

CRC FOODGRADE WHITE CHAIN & DRIVE LUBE

CODE	SIZE	PACK QTY
048000231	400ml	6

CRC Food Grade White Chain & Drive Lube is an extreme pressure lubricant formulated with PTFE for heavy-duty lubrication of chains, pins and sprockets. The high viscosity lubricant with excellent adhesive properties forms a tough film that remains in place during extreme wear without risking contamination of food and other clean environments.

CRC FOODGRADE DRY LUBE

CODE	SIZE	PACK QTY
048000230	400ml	6

CRC Food Grade Dry Lube is ideal for sliding mechanisms and on extreme heavy loads to reduce wear and prevent galling or seizing. For mechanisms that are operated at infrequent intervals or are lubricated for life. Wide temperature range from -20°C to +250°C. MPI Approved C15. CRC Food Grade Dry Lube is ideal for sliding mechanisms and on extreme heavy loads to reduce wear and prevent galling or seizing.

CRC SILICONE AEROSOL 5.56

CODE	SIZE	PACK QTY
048000005	550mls	6

CRC 5.56 forms a thin film that lubricates moving parts for smooth action and silences annoying squeaks and squeals. Superior penetrating power breaks through rust and corrosion, loosens rusted parts, displaces water from wet equipment and cleans away scale and dirt. It protects metals from corrosion caused by humidity, salt air and other corrosive atmospheres.

CRC AEROSOL BRAKLEEN

CODE	SIZE	PACK QTY
048000062	600gm	6

CRC Brakleen Brake and Parts Cleaner formulated to quickly and safely remove brake fluid, grease, oil and other contaminant from brake linings, pads, drums and callipers. Recommended for the cleaning and effective removal of grease and oil from mechanical brake linings, drums, brake shoes, disc brake pads, discs, wedge brakes, springs, callipers, clutches, clutch discs, chains, wire ropes, dies, moulds, parts and bearings.

CRC PAINT MARKER PEN

Enhanced grain retention for longer product life & aggression.
 Increase of cut rate and life over competitive/blended/low ratio ceramic alumina disc.
 Reduced loading and glazing on stainless steel, heat, titanium and super alloy.
 Norton Fibre discs feature a full resin bond system with heavy duty fibre backing for increased strength, durability and tear resistance.
 Great for Welding foundry and transport markets, metal fabrication and those doing weld grinding, light deburring and material removal.

The Norton Blaze Rapid Stripping discs can be used for multiple applications, from heavy corrosion and rust removal, to thick coatings on metal components.

- Benefits include:**
- It does not shed on rust encrusted pieces.
 - Does not load and clog with soft metals, sticky coating or adhesives.
 - Rapid and efficiently stripping and cleaning.
 - Will not damage the metal surface.
 - Norton Blaze is also ideal as a paint stripping disc.

The Maxabrase range of cutting and grinding discs are made to perform when cutting and grinding mild-steel and stainless steel. Tested under European testing criteria and manufactured to meet EN 12413 Standards you can have confidence when using Maxabrase discs for your next job. Long lasting, with a fibreglass backing, these are a must have for your tool kit.

Notes on gauges:
There are different gauge series for Screws, for sheet-metal, for Wire, for Rivets and for Drill Bits. There is no correlation between them. For Screws, the gauge is the major diameter of the thread. For Washers, it is the thickness of the metal (sheet gauge). For Nails, Brads, and Staples, it is the wire size (SWG) from which the item was formed.
